RFQ

Q1 How long will the 100% human hair last?

The hair can last for a very long time, it depends on how you maintain it. If you treat it like your own hair and take good care of it, then it will last longer.

Q2 Why my hair extensions are getting tangled?

Your hair Extensions are getting tangled due to dryness. Make sure to wash your hair at least once a week, twice a week is better. To avoid tangling while you sleep, wrap hair up with a satin scarf or use a satin sleep cap or a satin pillow case to prevent friction.

Q3 How to tell human hair with synthetic hair?

Human hair has natural protein. It is easy to tell by burning and smell: human hair will be ash, which will go away after pinching. Human hair will smell foul. When burning, the human hair will show white smoke. While synthetic hair will be a sticky ball after burning and will show black
